MOON CRESTA

The war has begun from Galaxy to Galaxy. The almighty ALIENS are advancing to planet Earth. The horrific battle is with us. COLD-EYE will distract them divide when wounded, SUPER-FLY is testing our weaponry systems, as FOUR-D and METEOR are directing punishing attacks and ATOMIC-PILE will surely destroy us. Wave after wave they increase their fearsome invasion. Earth's only weapon capable of success is MOON CRESTA a three stage MULTI-FIRE rocket.

SCORE

Cold Eye

50 Points

Super Fly

30 Points

Four-D

60 Points

Meteor

200 Points

Atomic Pile

100 Points

PLAYING RULES

- ★ The game may be played by 1 or 2 people.
- ★ Insert coin.
- ★ Select 1 or 2 player button.
- ★ Shoot down the attacking enemy by pushing the firing button, slide the ROCKET to the right or left by moving the control lever.
- ★ Extra ROCKETS (No. 1, 2, 3) will be awarded if the score gained exceeds the pre-set points.
- ★ The game is over when all ROCKETS have been destroyed.
- ★ You can leave your name (5 highest scores) on the screen to register your success (MIN.5000 pts.) against the invading aliens.

Docking

- ★ The object of the mission is to succeed in docking the first stage ROCKET with the 2nd and 3rd stage.
- ★ The highest score is obtained by completing the docking operation in the shortest time.
- ★ When the docking is successfully completed a high rate of fire will produce a high score.

If you complete 2 or 3 stage docking successfully, you will have MULTI-FIRE power.

Three stage ROCKET
